

Datasheet spring operated shut off nozzle (needle)

Data:

Company name:
Street:
Zip code:
City:
Phone.:
Date:

Contact person:
E-mail:
Suitable for IMM:
Nozzle type:
Amount:

Dimensions:

Fill in the dimensions in the empty cells above.

Specifications:

Type:		Model-I	Model-II	Model-III
Max. shot weight (indication):	gram	200	1000	5000
Max. screw diameter (indication):	mm	40	70	120
Max. machine clamping force (indication):	ton	<150T	<400T	<1200T
Length body (L1):	mm	91	123	145
Width hexagon:	mm	46	50	60
Dimension heater band (G):	mm	Ø45 x 40	Ø47 x 60	Ø60 x 80
Pressure opening (indication):	bar	280		
Pressure shut off (indication):	bar	100		
Max. injection pressure:	bar	2500		
Max. temperature:	°C	380		

The shut off nozzles will be delivered including heater band with integrated thermocouple type J.
The length of the cable is 1,5 meters.

Fill in the data and dimensions and mail the scanned document to info@hacoplast.com
